PREFACE

The literature of Buddhism is vast. The student without a firm foundation may find the religion bewildering.

This guide is only an introduction to the more involved literature of Buddhism. Yet hopefully the guide will serve its main purpose: to present reference sources, mostly in the western languages, that will stimulate further research and study. Basic books on Buddhism like Sacred Books of the Buddhists, etc., are not included since primary and secondary sources were frequently given in many of the reference sources.

A few general but substantial articles on Buddhism can be found in some unlikely places, e.g., Dictionary of the History of Ideas, International Encyclopedia of the Social Sciences and the Encyclopedia of World Art. The 15th edition of the Encyclopaedia Britannica provides one of the most detailed articles on Buddhism in a general encyclopedia. This is not, however, to dismiss other English language general encyclopedias for the student to check.

With the exception of one source all material is located in Lockwood Memorial Library, mainly in the reference collection on the second floor; other sources are located in Lockwood stacks.

An asterisk (*) with the call number indicates sources that are suggested for the reader with little background in Buddhism.

Encyclopaedia of Buddhism. Edited by G.P. Malalasekera. Ceylon, Government Press, 1961-

This scholarly and definitive work is in progress. Presently volumes 1, 2 are completed and issues 1-4 of vol. 3 are published. This is a major undertaking in the English language of the vast domain of Buddhism for over 25 centuries. Consequently not only doctrinal concepts are included but also history, Buddhist schools, painting, music, sculpture and related fields.

The arrangement of the encyclopedia is alphabetical. Illustrations are in color and black and white. Many articles are initialed by the contributor. Bibliographies are limited, but there are many references in articles to books and periodicals.

The schedule of completing the first edition of the encyclopaedia, comprising 15,000 pages in ten years unfortunately has not been met.
